LEAD ADULT CARE WORKER APPRENTICESHIP

Lead Adult Care Workers are tasked with the challenge of making a positive difference to someone's life when they are faced with physical, practical, social, emotional or intellectual challenges. They are expected to exercise judgement and take appropriate action to support individuals to maintain their independence, dignity and control. By providing leadership, guidance and direction at the front line of care delivery, the care worker is instrumental in improving the health and well-being of those receiving care and support. Lead Adult Care Workers will in some circumstances have delegated responsibility for the standard of care provided and may supervise the work of other care workers. This exercising of autonomy and accountability means leading and supporting others to comply with expected standards and behaviours.
